

## Purpose Statement

"To improve lives through the education, creation, and implementation of software, empowering individuals to connect and build communities that foster growth and opportunity."

## Mission Statement

"Our mission is to educate aspiring software engineers, guiding them in the creation of innovative tools that address the challenges of connecting with the right people. Through public use of these tools, we aim to cultivate opportunities that enable communities to flourish."

## Vision Statement

"The creation of a social network that leverages the skills, interests, and reputation of its members, so that one can find another, and have a meaningful, beneficial interaction for both."

## Values

1. **Education:** We are dedicated to nurturing the next generation of software engineers, providing them with the skills and knowledge to succeed.
2. **Creation:** We believe in the power of creating tools that solve real-world problems and make meaningful connections possible.
3. **Implementation:** We encourage the active use of these tools, enabling people to see the opportunities they create come to life.
4. **Community:** We focus on building strong, supportive communities where individuals can connect and grow together.
5. **Opportunity:** We strive to unlock potential by providing access to resources and connections that lead to personal and collective success.

## Organizational Goals

1. **Educate future software engineers:** Expand our educational programs to equip more individuals with the skills needed to excel in the software industry.
2. **Develop impactful tools:** Guide our engineers in creating products that address the challenges of building connections and communities.
3. **Promote tool adoption:** Encourage widespread use of our products to foster community growth and opportunity.
4. **Secure funding for expansion:** Obtain financial support to scale our educational programs and software development efforts.
5. **Cultivate community partnerships:** Build alliances with organizations that share our vision, amplifying our impact and reach.

## Tagline

"Building Connections, Creating Opportunities."
